MILLIWAYS

PART ONE

BY

VICTOR BRIGHT & JASON WELCH

At the Eagle and Child pub to the west of Kaldor City STENTON RELL is telling a small group an update on his successful mission to Nimbus 3

RELL And if I hadn't arrived in the nick of time the humans would have been captured by Draconians .

HIS WRIST communicator bleeps

RELL Seems I'm going to have to love you and leave you. The Senate is in session and they want a full report .

RUBY tell it like it is RELL,

RELL As long as i'm a hero to millions of KALDOR CITIZENS

He leaves the louver doors and through the market stalls then out the gates where there's a helipad to the right of the building with V78 Manning the security desk

The sunsets on the horizon when he takes a pre-programmed flight plan over the city of KALDOR and lands on top of Company Central building entering a travel tube that whisks him in four directions to The Senate chamber .

The huge auditorium that houses 447 senators who sit in a huge arc in front of the Center Stage .
RELL takes his place at the back where he can see First Master Landerchild on a large monitor screen behind the center Stage .
Landerchild is giving a Reports on the new ruton tractors that have been installed in pub restaurants throughout Kaldor
LANDERCHILD Senators you can tell the people that they came from The Sands of Nimbus 3 and that's where they're going back to.
CARNEL Yes but they prove themselves intelligent animals
RELL We might have expected this from the humane interest group there's bad at the taranisTs,
LANDERCHILD Yes thank you RELL the SENATE knows of your successful missions in Nimbus 3 .WE'RE WAITING WITH BAITED BREATH FOR A REPORT FROM THE NEWS AGENCIES TOMORROW
RELL gets a call on his wrist communicator inviting him in for a private meeting with COMMISSIONER MILES
On a monitor is playing feeds from throughout the empire as LANDERCHILD leaves the Senate building . As he leaves the large chamber a huge tannoy speaker announces the arrival of President Vanessa Bellamy of the galactic Federation With her chief of staff General Williams .
LANDERCHILD Oh that's great I'll see you in my office ,you coming RELL
RELL gets off the podium and leaves the senators discussing a new shopping centre opened at Galta Prime And meets LANDERCHILD at the RED SLIDING DOORS OF THE TRAVEL TUBE where they're whisked in four directions to the executive offices .
UAVANOV This better be good RELL I need your backup she has arrived with general Williams
RELL v21 can you go and get some Soma and Perrier water .
LANDERCHILD Our audience appreciation figures are at an all time high since you rescued the human captives on NIMBUS 111

RELL Yes I was saying to Ruby earlier in the Eagle and Child BAR if I hadn't arrived

LANDERCHILD Be careful what you say to the news agencies .

Just then the door swishies open and PRESIDENT VANESSA BELLAMY comes in wearing a one-piece charcoal gray bodysuit as she's escorted into the room by General Williams in his army issue green uniform

LANDERCHILD Madam president is so nice to see you

PRESIDENT VANNESSA BELAMY FIRST MASTER I'VE LEFT YOU IN CHARGE OF NIMBUS 111 AND EXPECT A FULL REPORT

General Williams is followed BY a large reptilian biped in a military uniform .

PRESIDENT VANNESSA BELAMY you know SONDAR THE DRACONIAN empire

LANDERCHILD Well it's always nice to see an ambassador of the galactic Federation. How can I help you?

SONDAR I really must pROTEST, the galactic Federation saying the Draconians are helping the Rutons of NIMBUS 111 to establish a power base and become a military power .

FIRST MASTER UVANOV We're very particular about what we tell the news agencies

PRESIDENT VANESSA VELLAMY Then the leak was not deliberate

RELL Very sorry AMBASSADOR it could have been me in the pub just before the Senate got a full report .

SONDAR walks over to RELL and offers RELL a seat opposite him.

SONDAR HAVE you ever played DRACONIAN chess RELL

STENTON RELL No ambassador i've played KALDOR CHESS.

SONDAR `IT'S JUST LIKE HUMAN CHESS BUT THE LOSER

GETS EATEN.
PRESIDENT VANNESSA BELAMY Don't worry RELL it's just the ambassadors sense of humor.
SONDAR **YOU TO START !?**
PRESIDENT VANNESSA BELAMY Really ambassador the news AGENCIES are independent .
GENERAL WILLIAMS T hat's right SONDAR you can't blame the GALACTIC FEDERATION for the actions of a few reporters
COMMISSIONER MILES You really can't to give statements to the news agencies without my authority RELL.
RELL Only told a few of MY FRIENDS.
SONDAR And i will not have the DRACONIAN EMPIRE blamed.
PRESIDENT VANESSA BELAMY Our piece treaties are hanging on the delicate balance LANDERCHILD
SONDAR Already my high command is asking for an explanation
FIRST MASTER LANDERCHILD I'll ask Connell see what he can do
CARNEL The next documentary will clear things up of the events on Nimbus 3 And I will supervise all news items first master .
On the monitor CARNEL is replaced by SLIM PICKENS ,President of GALDA PRIME.
SLIM PICKENS [Your DENTRASI feeding an ever growing population on GALDA PRIME
PRESIDENT VANESSA BELAMY Dentrasi meat very popular
SONDAR CHECKMATE RELL
STENTON RELL I'LL RESIGN MY COMMISSION
FIRST MASTER LANDERCHILD No Rell you can't do that
STENTON RELL DAM
SONDAR But don't worry I'm not going to eat you but i'll have to blame you for the report
UVANOV If we can see you back on patrol in uniform we might be able to salvage your career
PRESIDENT VANESSA BELLAMY And If you can provide me with security
for that new new Entertainment from caldoR
COMMISSIONER MILES You mean DIMENSION madam president they'll be 50,000 spectators and billions throughout the empire .
PRESIDENT VANESSA BELLAMY It's going to be the biggest social gathering in my administration

LANDERCHILD And very profitable for the company
PRESIDENT VANESSA BELLAMY Now I have to cow tou to that odious little man Who runs GALDA PRIME .
RELL; Oh the fat Texan in the cream suit
PRESIDENT VANESSA BELLAMY One of our early survey probes found GALDA PRIME and we established a colony but the population has increased In a sharp geometric progression .
UVANOV Yes there must be something in the water I wish I can have some
RELL Need a little pick-me-up do you I'll get a SuperVoc to take you home

Elsewhere in the suburbs of KALDOR a ground car drives through the perimeter fence And takes the one single Road out towards the blind hEART desert .
The all-terrain vehicle is designed to cope with the sand dunes and the two men are dressed combat fatigues with protective va helmets
They both belong to the criminal underworld
MAX VILMIO Why on earth can't we take a flier
VICTOR BRIGHT All flyers are registered to company Central MAX. We don't want the company breathing down our backs .
MAX Of course I should have known how long till we get there
VICTOR BRIGHT keep along the central road and

hopefully we'll get a signal before we reach the Nomads on the Far Side of the blind heart desert
MAX As long as I get my share when we get back to KALDOR..
VICTOR BRIGHT You'll be rich enough to buy yourself a clean slate with founding family members but you you probably play on loose living and unsound proctological investments of the DERRIER .
MAX This package will be there when we get there VICTOR?
VICTOR BRIGHT Supply ship has just come into orbit from ANDROZANI MAJOR where they mine raw SPECTROX and I've made a deal with one of the crew to launch a payload from high orbit into the blind heart desert.
MAX drives Along the The single road into the blind heart dessert while victor waits for a signal from the package they are collecting .
VICTOR BRIGHT T ake a left off the road and climb that Sandbank we'll circle for an hour till we get the signal .
The all-terrain vehicle climes the Sandbank at a steep angle and over the other side .
MAX VILMIO Are we going to be able to get back into the city without being detected.
VICTOR BRIGHT W e are about to get 4 kg of raw spectrox drop from a freighter at high altitude straight into the blind heart desert >
VICTOR BRIGHT This is very valuable and highly addictive.
MAX VILMIO That's right only members of the founding families get their hands on that stuff.
MAX VILMIO I have a blip on the satellite navigation locator.
VICTOR BRIGHT T hat's right and if you're getting a signal so company Central so get there as quick as you can .

Stanton RELL is in the PRECINCT house ready for a patrol with his unit.
Brad HOWDIE PARTNER.
They get changed into their Uniform with silver new Moon boots white shoulder pads and floor length white cape .
BRAD Do I have to wear shin pads I feel like I'm about to to go out for back of the cricket pitch.
RELL ` And one of those vicious Apache Warriors kicks you in the shins while you're on patrol you'll know about it .
BRAD Great To see you back on patrol Sarge .
RELL Well I don't want the draconian Empire breathing down our neck just as I'm up for promotion . I'm going to be made an example of in front of the Galactic Federation .
BRAD NAUGHTY
RELL I said the DRACONIANS were employed as soldiers of fortune on Nimbus 3 to a few friends in a bar
First master miles enter the changing rooms from the upstairs gallery.
COMMISSIONER MILES You know what it's like for company men RELL if we go to war with DRACONIANS and it'll be your fault.
BRAD Y ou tell him GUV .
RELL You just line up and stand to attention when you speak to her superior officer .
Just then his wrist communicator gets a message:-
There' s an unregistered vehicle entering KALDOR
RELL A ll units moving to CYPRUS CORNERS level 1 let's try and get there before they escape
BRAD But that's a residential area and it's Rus h hour.

reLL And it has it's own shopping mall I'll phone security.
They march out of the changing rooms to the nearest travel tube that whisks them in 4 directions to Cyprus corners and down to the shopping centre on level 1 .
There's a healthy trade of customers and the ground floor concourse is crowded .

RELL Cover all exit s and check everyone leaving the shopping mall.
They run through Cyprus corner main concourse and through a group of Independent Traders using the emblem of the security guards saying **[be at peace with the world]** to any of the frightened civilians .
BRAD If I was paid every time I said the motto of the KALDOR POLICE I'll be rich .
RELL keys in his security number in the entry coder to the security office and they go straight in.
BRAD **[be at peace with the world]**
From a tannoy speaker above a side exit into the car park they hear the synthesized ambidextrous voice of monitor the mainframe computer of KALDOR .

Suspects in car park

BARCLAY SILVER That's right the only way in and out in the city and it has to be in my supermarket.
STEVE It was the same in the Kirkdale shopping centre in **Bradford .**
BRAD Great Sergeant now let's flush them out.
BARCLAY SILVER There car was registered as they entered the city and my men are checking ID of everyone leaving Cyprus corners .
RELL Patch me into The Tannery for the whole of Cyprus

corners.
STEVE WE HAVE YOU SURROUNDED.

The fire exit of Haddington department store sounds.

RELL Alpha squad get after them.
BARCLAY SILVER You lot start barging around what am I supposed to tell my customers.
BRAD J ust say be at peace with the world we're the KALDOR POLICE conducting official business. .
RELL and his men run to Hanningtons department store through hardware and menswear to the lingerie department over a maroon tiled carpet through checkouts and through fire escape doors to the car park then use a wall mounted INTERCOM to get through the tradmans entrance to central HAWAIIAN PLAZA to the ornamental garden with water fountain and flower boxes of TYLIPS, we're Victor B right and Max V ilmio are surrounded .
RELL **[B e at peace with the world]**
MAX VILMIO That's all you ever say.
BRAD Are you trying to be funny .
RELL I don't call 4 kg of raw spectrox funny . Take them away and lock them up till I decide what to do with them .
ALPHA SQUAD make it back to the precinct house and check in.
COMISSIONER MILES you'll all have to stay on duty there might be trouble at dimension but never mind once Roger Rees has pushed people through that dimension Gates everyone will go back to their residences
BRAD HOPEFULLY WE CAN PERSUADE THEM TO GO HOME
STENTON RELL I'll go and interview our captives
RELL enters the interview room to find Victor Bright waiting for him
RELL BE AT PEACE WITH THE WORLD
VICTOR DOES THAT MEAN I GET A CUP OF TEA
RELL Getting caught with 5 kg of raw spectrox is a very serious crime
VICTOR BRIGHT Here's one for you officer
RELL I've no time for your jokes
VICTOR BRIGHT Two lady Cosmonauts are up in space
,
MAX VILMIO BUT THEY WHERE COSMONAUTS .
RELL OH BRAIN STORMING ARE WE
RELL LOOKS AT VICTORS CHARGE SHEET
VICTOR BRIGHT I'll plead guilty once I've mentioned all my co-conspirators .
MAX VILMIO Only we ain't telling you because those two lady cosmonauts ejected 4 kg of raw spectra from high-altitude on to the sands of Kaldor .

RELL AS LONG AS I CAN TRACE THE PACKAGE BACK ITS SOURCE ON ANDROZANI MAJOR
VICTOR BRIGHT You'll be arresting one first master and several members of the founding families INSPECTOR RELL .
RELL gives him an Android 3000 viewing slab saying [just prepare a report before I take you to sentencing]
hE LEAVES THE INTERVIEW ROOM AND WALKS BACK TO THE KALDOR POLICE LOUNGE
BRAD You ready for DIMENSION tonight
RELL The biggest social gathering on Kaldor with a brand new stadium
COMMISSIONER MILES That's why I wantED all the petty criminals off the streets early
Alpha squad are the first to arrive at The purpose-built stadium for dimension and walk down into the arena we're rehearsals are underway .
LANDERCHILD Well done RELL you made it and you're getting great audience appreciation figures for your capture of the criminals in Cyprus Corners
RELL yoUR as bad as I am
LANDERCHILD EXPLAIN
They move over to one of the control Booth so they won't be overheard
RELL I've just been told that I can't prosecute those two men because half the founding families are using SPECTROX
LANDERCHILD Yeah sorry about that RELL
RELL And here's me eating Humble Pie on patrol with the lads because I accidentally spoke about Nimbus 3 ..... By the way where did you get all those dances
LANDERCHILD They come free MAHONEY'S traveling circus for the opening acts of DIMENSION
RELL I will check the stadium but I want to know what to do with citizens BRIGHT AND VILMEO
LANDERCHILD Just keep them on ice for now if we can't do anything else will just push them into the dimensional jump gate with the other contestants .
RELL Good idea I wish I could have done that with some of my other criminals .
LANDERCHILD I've got to go now for the meeting of the Ambassadors So I'll see you back here soon for the start of dimension

He walks out of the stadium to a travel tube that takes him across to the presidential suite where General Williams answers the door .

GENERAL WILLIAMS So what's next for a tour of KALDOR it's hard enough to keep the galactic Federation together with all these political scandals going on

PRESIDENT VANESSA BELLAMY that's right we have high hopes for the pilot episodes of dimension

LANDERCHILD Madame president and Next official meeting will be for the people of Galta prime so they can see where the dentrasi come from

PRESIDENT VANESSA BELLAMY Yes and after that I want to take a look at that research facility

LANDERCHILD we're going to the far side of KALDOR are and I'm going to have to take a flyer

ON A MONITOR CENTRAL CONTROL ANNOUNCES THE ARRIVAL OF THE EARTH AMBASSADOR

LANDERCHILD He's keen to get back to his home planet and start an exchange program

PRESIDENT VANESSA BELLAMY That's as maybe but we've asked them for some of their research and they lock us out

The AMBASSADORS follow Landerchild to a helipad on top of the building we're a flyer is waiting

He walked up to a waist-high console man's byV36 who puts in a pre-programmed flight plan

The Ambassadors alight flyer which Takes them over the skyline of kaldor and enters the blind heart dessert landing on a large dome to the south of the main city .From there they walk out and along a Central gantry Over the dentrasi Farm .

The AMBASSADORS walk along the central gantry to the control room at the centre .and.Far down below flood lamps illuminate grazing fields where dentrasi, Are grazing

GENERAL WILL IAMS THEY ARE STRANGE LOOKING CREATURES

SONDAR Humans used to say that about us

PRESIDENT VANESSA BELLAMY A cross between a zebra and a camel with a round head,

FIRST MASTER LANDERCHILD Nevertheless that is why we're here

SONDAR Explain yourself Landerchild why I should be involved with human affairs . I'm just here to clear the name of the draconian empire .

LANDERCHILD SLIM PICKENS has doubled his order a dentrasi meat to meet the ever growing demands and the population of GALDA PRIME .

PRESIDENT VANESSA BELLAMY WHAT HAVE YOU DECIDED

FIRST MASTER LANDERCHILD The routons breeD by binary fission

CASTAN LAGO Change them into DENTRASI and send them to Galda Prime .

PRESIDENT VANESSA BELLAMY Part of the problem is that they kill on touch

FIRST MASTER LANDERCHILD I let my chief Scientist explaining the research centre

PRESIDENT VANESSA BELLAMY I hope this won't take long I've got to be ready for the opening ceremony of dimension .

They walk back through the Central gantry with DENTRASI grazing in the fields below TO THE TRAVEL TUBE, that takes them out of the food production dome and through KADOR CITY to the research and science centre depositing them at reception .

FIRST MASTER LANDERCHILD My chief scientist CASTAN LAGO may have a solution .

They walk through reception and into an observation gallery above a large laboratory maned by a supervoc overseeing another experiment .

In the laboratory rutons Are being prepared for another experiment as CASTAN LAGO comes into the observation gallery and walks up to the central consol.

CASTAN LAGO v23 Prepare another subject for the experiment

His lab assistant Steps up above the gantry and starts a saline drip into the

birthing Chambers where RUTONS are stationed in their natural states of giant squid .
CASTAN LAGO v45 Connect the power unit to the birthing chamber and switch on
V45 switches on the power and the ambassadors can see an arc of electricity over the birthing chamber
PRESIDENT VANESSA BELLAMY what are we supposed to observe here LANDERCHILD
CASTAN LAGO Madam president this is my first experiment into the new cloning techniques for the route and HighbrEAD .I inject them with the genetic code of DENTRASI and expect them to change .
LANDERCHILD If successful I'll start sending the results to GALDA PRIME .7
PRESIDENT VANESSA BELLAMY To alleviate the food shortage there, I see
Steam is rising from the birthing Chambers And there's a smell of Ozone in the atmosphere
CASTAN LAGO v45 Cut the power
GENERAL WILLIAMS I don't see a dentrasi in the birthing chamber .
CASTAN LAGO Madam president My research is based on descriptions of an experiment conducted on Earth by global chemicals .
LANDERCHILD Then you must have missed something
CASTAN LAGO I tried to recreate the experiments of professors ZAROV
LANDERCHILD Yes and we all know what happened then, ZAROV had an accident in his own laboratry and was converted .
GENERAL WILLIams He then escaped the GLOBAL CHEMICALS complex in the MOJAVE DESSERT and found an island for RUTON high command
PRESIDENT VANESSA BELLAMY TAKING ALL HIS RESEARCH NOTES WITH HIM
CASTAN LAGO If this is going to be a success I must have all the details from the ZAROV experiments .
GENERAL WILLIAMS we'll see if we can get you you a copy of the ZAROV cloning technique from earth .
PRESIDENT VANESSA BELLAMY Great,Then Let's agree to a plan of operations after tonight's performance .
On on the opening night of dimension the host of the show comes through

the Dancers from Mahoneys travelling circus and takes centre stage
His image projected on a huge monitors aboveThe studio audience .
This is new dimension coming to you live throughout the galactic Federation
ROGER REECE Good evening everyone and welcome to the show
HELEN SHARP The PHAROS project has completed its second stage and the unmanned probes that where sent out to the far corners of the Galaxy to find M-Class planets have constructed the dimension Gates
The stadium is full of eager spectators as a contestants who have been selected to go through the dimensional jump Gate to start a new life Enter the arena
HELEN SHARP Kaldor sent one voc robot with the PHAROS PROBE to construct the dimensional jump gates,So we can send out two teams of volunteers , To start a new life in another part of the galaxy .
ROGER REECE The PHAROS PROBES scanned for M-Class and found one on the Far Side of the galaxy .
HELEN SHARP The second PHAROS PROBE sounds an M-Class planets near the centre of our galaxy
ROGER REECE Yes that's right Helen and what a couple of planets have we found .THETA SIGMA Is near the centre of the Milky Way galaxy and its atmosphere is constructed of 25% oxygen 50% helium and 25% carbon dioxide .
HELEN SHARP PHAROS PROBE TWO was even more lucky when it reached the other side of the Milky Way galaxy . UMA Has an atmosphere of 40% oxygen 40% helium and 20% carbon dioxide .
ROGER REECE And only the fittest and the strongest are going there
HELEN SHARP we sent the UMA team to an old housing estate on the outskirts of kaldor to prove how fit and strong they are and after they finish exercising all that was left was crumbling brickwork
ROGER REESE Yes folks these are big men but when they get to Uma all they can eat is salad
HELEN SHARP We asked TANK ZOR leader of the UMA TEAM if they where willing to eat only salad when they get there, Salad that has been growing in oxygen rich atmosphere of UMA
TANK ZOR The oxygen-rich atmosphere shall compensate us for losing carnivorous tendencies though it's going to be tough for some of my team .
TANK ZOR If it's going to help us reach the the

heavens my team is
Wlling to colonise UMA
Up on the balcony at the top of the stadium, the presidential party is there with leading members of the founding families of KALDOR
PRESIDENT VANESSA BELLAMY I must say Roger Rees puts a bit of sparkle to the proceedings
GENERAL WILLIAMS Don't forget to smile at the cameras madam president
RUBY Slim pickings is on the line again from Delta Prime
COMMISIONERS MILES Ok then put him on
On one of the monitors affect texting the cream suit apears
SLIM PICKENS We're all enjoying the show very much but my sociology department is predicting it 20% rise in population in the next 3 years
CHEIF MOVER POUL Send all you reports to me SLIM
PRESIDENT VANESSA BELLAMY And book me an appointment with the EARTH AMBASSADOR so I can find out about this ZAROV technique .
Down in the central stage is a huge fanfare for the team going to UMA as they enter the dimensional jumpgate . At the centre of the large stage one of the two 10-ft arcs rotates 40 degrees and strong light is reflected of the shimmering surface of the DIMENSION gate .7
ROGER REECE Well there they go the brave team em Far out one in the other side of the galaxy .
HELEN SHARP Yes that's right Roger And what's this folks a party of people from and newest member of the galactic Federation and president of global chemicals on Earth has just arrived through the dimension Gate light .
PRESIDENT VANESSA BELLAMY Have on of those young assistants from MAHONEYS TRALELLING CIRCUS bring them to the balcony
COMMISSIONER MILES Then we can see them in your rooms LANDDRCHILD .
Two of The Young assistants from MAHONEY'S TRAVELING CIRCUS take Peter Elgin through the Spectators and up to the presidential balcony .
PETER ELGIN I've bought you two mechanics who are keen to find oil and develop ground Cars .
GENERAL WILLIAMS When the survey ship found KALDOR We surveyed the whole planets and found an area to colonize and then striped the ship

ELGIN So you have no oil based products on KALDOR, well my team is here to prove that you can make a perpetual motion machine and a ground car
PRESIDENT VANESSA BELLAMY Yes will let all the Earth people come and help us
GENERAL WILLIAMS Maybe you can send us some gardeners and some people to help our grandmother suck eggs .
The two engineers in light green boiler suits with names in emblazoned and on the back are escorted by dancers from MAHONEY'S TRAVELING CIRCUS to their quarters
ELGIN Can I have a balcony seat
GENERAL WILLIAMS No but I can give you a seat in the dress circle right near the front of the stage
PRESIDENT VANESSA BELLAMY Now PETER I want you to tell us why we cannot get hold of the ZAROV experiments The president of GALDA PRIME is very keen for us to duplicate his work.
PETER ELGIN We still don't have an earth government on Earth and the superpowers a very competitive .
PRESIDENT VANESSA BELLAMY So one sides taken charge of all the research
ELGIN That's right All material relating to the ZAROV experiments and now top secret And it's really hard to move them .
PRESIDENT VANESSA BELLAMY We try to duplicate ZAROV'S work and failed
ELGIN I'll try to find out what I can but you must be patient
Over on the central stage 4 last of the colonists has entered the dimension Gate
ROGER REECE In a surprise to a scheduled program of events we are sending to engineers to planet Earth
HELEN SHARP Recently a group of Earth people came to us through the dimension Gate as part of the viscount Space Program
ROGER REECE the viscount Space Program was created by humans on the other side of the galaxy
T he kaldor police lead VICTOR BRIGHT and MAX VILMIO through the crowds of spectators and onto the central stage
ROGER REECE These two men are following the Earth ambassador in the Spirit of intergalactic cooperation
Bright and Vilmio are led back off the stage by STENTON RELL and BRAD
PRESIDENT VANESSA BELLAMY Commissioner miles go and

breaf our agents and tell them to find professor ZAROV to get the to get his research and send it back to us
GENERAL WILLIAMS I'll go with him this is top priority.
VICTOR BRIGHT and MAX VILMIO are Led out of the dimension Stadium and into a travel tube that wish them in four dimensions to the kaldor police Precinct and then into an interrogation room
STENTON RELL Radiation you two are very lucky you're being sent to her where I hear it's very nice
VICTOR BRIGHT And exchange from immunity from prosecution
RE LL Tell me who's running your spektrox operation now
VICTOR BRIGHT No chance RELL most of the leading members of the founding families .
RELL Next time I arrest one of those Apache Warriors who looks like a teenager and turns out to be an old age pensioner I'm going to blame you .
The door swishes open and v36 seemed with d 7 followed by commissioner miles .The volk robots unloading equipment in front of them .RELL places to consoles in front of BRIGHT a nd VILMIO
COMMISSIONER MI LES Study the information on these two consoles they have full details of your mission .
RELL You don't need any equipment Everything else will be provided by global chemicals when you reach planet Earth
RELL moves to a large wall mounted monitor screen and switches on And an image of President Vanessa bell appears on the screen
PRESIDENT VANESSA BELAMY If you complete this mission all charges against he will be dropped and you'll become free citizens of KALDOR
VICTOR BRIGHT A n offer we can't refuse
GENERAL WILLIAMS Once you escape you'll have to fend for yourselves you'll have to find local currency and go into grocery stores to buy food
PRESIDENT VANESSA BELAMY But don't forget you're working for the galactic Federation and to moderate your actions accordingly
VICTOR BRIGHT Will lots of processed fast food with plenty of saturated fats you mean
GENERAL WILLIAMS Just tried to behave like normal humans .
BRIGHT and VILMEO are escorted by RELL out of the kaldor police Precinct house and enter a travel tube that wisks them in four directions to th Stadium just as most of the guests and spectators are leaving .

ROGER REECE Show continues on your home monitors before you leave and our Last Guests for the evening have just arrived .
HELEN SHARP That's right Oliver Moss has been guest of the galactic Federation and is now Earth ambassador
Bright and Vilmeo walk through the huge assembly onto the stage escorted by two of the kaldor police .
GALDA PRIME PART TWO

BRIGHT and VILMEO are escorted by RELL from the kaldor police Precinct house and enter a travel tube that whisks them in four directions to the Stadium where they walk through the assembly onto the stage
ROGER REECE Show continues on your home monitors before you leave and our Last Guests for the evening have just arrived .
HELEN SHARP That's right Oliver Moss has been guest of the galactic Federation and is now Earth ambassador .
ROGER REECE I don't forget folks the cyclotron leading to the particle accelerator only works with strawberry jam from your grocery store
HELEN SHARP and you if you have sugar in tea you're not welcome to this show
CHEF MOVER POUL escorts Peter Elgin and Oliver Moss to the stage
CHEF MOVER POUL You'll be getting daily reports from your ambassadors in the Spirit of trading corporation
GENERAL WILLIAMS In the meantime if you just look after our survey team here BRIGHT and VILMIO
OLIVER MOSS Don't you worry I'm a dab hand at

showing people the sites of Earth especially Latin America .
COMISSIONER MILES If you want to see your new mechanics back I would like a survey seem to enjoy their stay on earth
OLIVER MOSS They can even use my bathroom leave me conditioner in safe hands
RELL stops BRIGHT and VILMIO before they get on stage .
RELL You realise if you get captured you'll be detained by authorities
VICTOR BRIGHT Where not planing on getting captured
RELL Just tell the truth and will take responsibility
One of the two vertical arcs rotates 20 degrees creating a rip in the Fabric of space-time with a bright studio lights reflecting off its surface .
THE FOUR MEN ENTER THE DIMENSION GATE And walk out of an identical 8-foot high vertical arc into the throne room of a secret underground complex known as the asylum in the Mojave Desert .
